## About Me

Discipline Software Engineer with 3+ years in full-stack dev, specializing in Web3, AI/ML, Mobile and Cloud tech. Have built multiple projects for clients, hackathons, ideations, and even IoT companies. Fun fact: GitHub might be my strongest asset as of today. I enjoy updating myself on the latest tech news and will constantly learn and adapt to change. I also actively compete in CTFs, Game Jams, and Hackathons.

## Educational Background

- **Asia Pacific University, ICT (Software Engineering)** Bukit Jalil, Kuala Lumpur, Malaysia
  - GPA: 3.4/4.0

## Professional Experience
