ABOUT ME

Passionate Software Engineer with **3+ years** of Full-Stack Dev. But currently **specialising in AI/ML, Mobile, Web3 and Cloud tech**. Have built multiple projects for clients, hackathons, ideations, and even IoT companies. Always enjoy **updating myself on the latest tech** news and will constantly **learn and adapt to change**. I also actively compete in CTFs, Game Jams, and Hackathons.

p.s.: I put About me section at last as I'm not sure if some companies will have ATS to rat me out or not.. all I'm asking is to give me a chance to prove my magic..
