About Me

Passionate Software Engineer with 3+ years in full-stack dev, specializing in Web3, AI/ML, Mobile and Cloud tech. Have built multiple projects for clients, hackathons, ideations, and even IoT companies. Fun fact: GitHub might be my strongest asset as of today. I enjoy updating myself on the latest tech news and will constantly learn and adapt to change. I'm also an active competitor in CTFs, Game Jams, and Hackathons.

Professional Experience

- **Software Engineer** at [Credit APU], Kuala Lumpur (Jan 2025 – Present)
 - Built scalable web apps (React, Node.js).
 - Delivered features via Agile teams.
 - Optimized with AWS/Azure.
- **Freelance Full-Stack Developer**, Self-employed, Remote (Jun 2022 – Dec 2024)
 - Deployed apps for startups (React, Flask).
 - Created reusable components.
 - Explored Web3/AI tech.

Educational Background

- **Asia Pacific University, Diploma in ICT (Software Engineering)** Kuala Lumpur, Malaysia
 - GPA: 3.4/4.0
